

My Dear and Beloved Marathoner Area,

Writing this letter to each of you is not easy for me because of my love and dedication to you, to the Mary Kay Corporation and to this opportunity I have loved for the past 37 years. Know that the last 11 months has given me time to reflect on my God given abundant life and of course, each Marathoner consultant and director over the past 37 years has contributed to my love for the Mary Kay business. I believe that my Mary Kay journey has been God ordained and God directed from the first day I signed my agreement. My obedience to His calling on my life, despite my persistent refusal to follow through with His plan, has enriched my life beyond measure. I pray that you, too, believe your Mary Kay business decision was in line with God's plan for your life because this understanding will help guide you through the challenges you will face both in building a business and in life.

This all being said, I have decided to retire 4 years early in January 2023 and to make this upcoming Seminar 2022 my last one. I hope each of you will celebrate with me and support my decision to relaunch my life with a new vision of hope and health! I do not know what the future holds for me or my husband, but what I do know is that God is with me. I have been truly blessed with hundreds, perhaps thousands of friendships that have been part of my life journey and with whom I have invested in relationship. Price tag: PRICELESS! These relationships are extremely dear to me and during this health journey, the love, the consistent prayers and support from each of you has been so humbling. The love you demonstrated on a daily basis contributed to my healing journey and gave me the deep rooted belief in God's plan to heal me. His word became more alive in my heart than it has ever been because of your example. Thank you!

We now have 7 months to retire in style, to give our best to the Mary Kay Corporation and to come out on TOP in the Emerald Seminar. Let's take on June 2022 as our ALL OUT MONTH to finish Seminar 2022 in the TOP 15 at the Emerald Seminar! Once June is over, I envision the Marathoner Area having their best 6 months ever in our history as we run across the relaunch finish line together in January 2023!

Let's do this together and celebrate our 20 + years as an area and our life-long friendships. Give it your best to finish June strong by being among the top 10 in sales and in sharing in your own units. Plan to come to Seminar July 29 to August 1st in Dallas to celebrate with me and all your friends in our area. It will be the best gift you can ever give to me to be able to thank you personally and give you a well-deserved hug. We can do this together just as we always have!

Love, Friendship and Belief,
